JOSHUA ARNCEL SIERRA

Full-Stack Developer | Mobile Developer | Web Developer

09368587433 • joshuaarncel@gmail.com • joshuasierra.vercel.app • github.com/Watot12345

PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of experience building and shipping production-grade web and mobile applications. Currently working as Project Based at Roppets and Capstone Project for Caloocan City Government, where a live health platform (healthsanitation.civentral.tech) serves citizens and staff. Skilled in React, Laravel, PHP, Python, and React Native. Open to additional freelance, junior, and internship opportunities.

EXPERIENCE

Project Based Developer | **Roppets** | *Aug 2026 – Present*

- Developed and shipped full-stack Html,js,tailwind css web features used by real end users in production
- Built and maintained backend REST APIs using php,js
- Refactored data-fetching patterns across the codebase, reducing component load time significantly

Capstone Project | **Caloocan City Government** | *June 2026 – Present*

- Architected database schema and server logic for healthsanitation.civentral.tech— a live government health and sanitation platform serving citizens/staff in South Caloocan City
- Integrated Supabase real-time sync enabling instant status updates for citizen service requests
- Delivered a production system that significantly reduced manual paperwork processing time for government staff

Freelance/Personal Projects | **Independent Client Projects** | *2022 – Present*

- Built Health Sanitation Management System, Barangay San Agustin Information System, and Attendance Management System for government, Schools and barangay clients
- Delivered Inventory/Logistics, Staff Management, Enrollment, and CMS systems for various local business clients
- Created SaaS platform, E-commerce app, Social Media app, Job Scraper, and casino game interfaces for freelance clients

Research Forum Participant | **Bestlink College of the Philippines** | *2024 – 2026*

- Attended seminars on AI tools, UI/UX design, and cybersecurity; applied learnings directly to development workflow

Work Immersion | **Barangay Gumaok West** | *2021 – 2022*

- Completed government office immersion; gained exposure to public service workflows and digital record management

KEY PROJECTS

Civentral Web & Mobile App | **Caloocan City Government** | *2026 – Present*

- Live government health and sanitation platform at civentral.tech actively used by 1,000+ citizens in Caloocan City
- Stack: PHP, JavaScript, Tailwind CSS, Supabase, PostgreSQL, React Native, Expo

SariSari Store POS System | **Personal / Founder** | *2026 – Present*

- Designed and developed an offline-first Android POS app that helps small neighborhood stores manage sales, stock levels, and customer credit without needing a stable internet connection
- Stack: Flutter, SQLite, Android Studio

SaaS Platform & Mobile Apps | **Personal / Client Projects** | *2023 – Present*

- SaaS app with multi-tenant architecture and subscription management — Stack: Next.js, TypeScript, Supabase, PostgreSQL
- Cross-platform mobile apps via React Native (Expo) and Flutter with REST API integrations
